1. The vote per party in each election for Galway West
The votes per party in the respective 2016 and 2020 elections are plotted in a bar graph depicting the votes and party name. It is easy to make sense of votes through a bar chart and for comparison purposes.
There was some discrepancy in the data, some party were new in each year so to keep the similarity in plot, the party which were not present in that election have been considered as zero and are seen with NULL graph.
